

**NOVUS**  
COLLECTION

## Flexible, Future-focused Design

**Traditional office spaces are designed for fixed use and this model no longer works for many of today's business challenges. Modular, adaptable workspaces offer a solution for a rapidly changing world. This is where the Novus collection can assist in creating a space that nurtures creativity, collaboration and overall wellbeing.**

Our designers have developed a multi-functional zoning system forged from a steel frame and enhanced with beautiful wooden and fabric elements.

Designed as a modular, interchangeable solution, Novus is built to allow components to link together and form unique settings for your space.

# NOVUS ÅBEN

# NOVUS ÅBEN

**Åben is our newest additions to the Novus collection.**

Designed to be flexible and future focused, this new product provides a ready assembled unit in a slim lightweight steel frame, reducing fitting time for fast and easy assembly.

Available in single and double width units, the åben can be linked to other units to expand the system to your space requirements.

Designed to be as flexible as you need it to be with multiple coordinated elements to style and maximise storage and acoustic functionality.

Coordinated elements available including:

- Acoustic panels
- Lockers
- Cupboards
- Shelves
- Planters
- Display boxes
- Base cabinets
- Moss panels
- Preserved foliage

## A sustainable future

At Frem we strive to reduce the carbon footprint of our products and processes to ensure a more sustainable future.

From reduced components and a lighter steel frame to the introduction of 100% European poplar lightweight plywood sourced from FSC certified and sustainable fast-growing plantations.

The new Novus Åben is another step forward in our sustainability journey.

Lightweight, sustainable  
and easy to assemble

## NOVUS KONTOR

**Manufactured from steel, Novus Kontor is a stable, sturdy system with a choice of interchangeable colour options.**

Each freestanding unit can be specified up to 2160mm tall to create a room-within-a-room environment with wooden, moss and acoustic panels adding privacy where required.

The structural strength supports the furniture elements as well as design details such as 'windows' and bridging sections. Novus Kontor can be readily repurposed, reconfigured and extended to accommodate evolving requirements. Clever touches include the interchangeable bracket enabling shelves to be positioned proud or flush to the metal supporting grid.

**Coordinated elements available including:**

- Worksurfaces
- Lockers
- Shelves
- Planters
- Display units
- Storage cupboards
- AV units
- Lighting
- Seating

Repurposed, reconfigured and extended to accommodate evolving requirements

## NOVUS BOOTH

**Novus embraces and facilitates today's varied working styles and practices providing spaces for autonomy and collaboration with a home-from-home feel.**

Novus Booth together with freestanding breakout furniture, creates a portfolio of integrated solutions. With excellent acoustic properties the Novus Booth provides a versatile space for small team meetings or solo working.

Available with integrated AV options and cable management.

Spaces for autonomy and collaboration with a home-from-home feel

# NOVUS TRELLIS & CANOPY

## NOVUS TRELLIS

**Trellis is a 2D version of the Novus system, which forms a space dividing structure.** Using a combination of Novus and Novus Trellis provides a pleasing contrast and maximises space. Plus, having the versatility of keeping the grid frame open, or with panels allows you to create your own environment.

- 2D grid design
- No intrusive feet are necessary as the design works with a sturdy linking mechanism and levelers.
- Same robust square 25mm x 25mm steel tubing as Novus to create the grid frame work
- Modular and configurable, from 3-by-3 square, up to 5-by-5 square
- Links on to Novus system or to other Novus Trellis
- Dress with various types of panel: acoustic, glazed, moss.
- Accessories can be hung from the Trellis such as wipe boards, notice boards and picture frames creating a multi-function 'wall'.

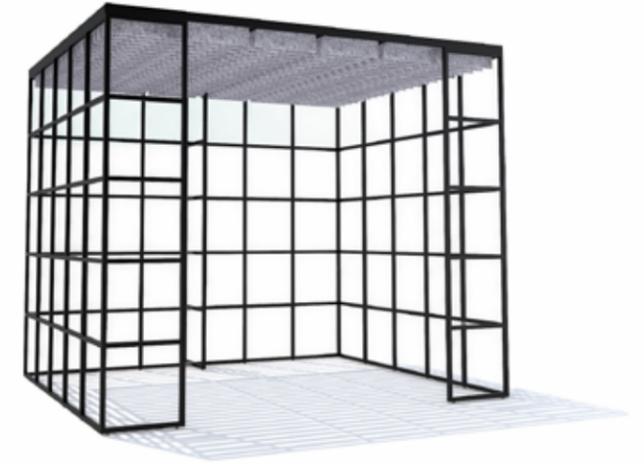

Modular and  
configurable

## NOVUS CANOPY

**Canopy is a ceiling structure, which can be linked onto Novus or the slimmer Novus Trellis.** Canopy can be supported by two sides creating an open collaborative area, with the versatility to add extra sections, fashioning a room-within-a-room.

- Robust 50mm x 25mm steel tubing frame work is used to create ceiling cross frames, which can house louvres if required.
- Recycled PET acoustic louvre panels attach to the Novus steel frame work to create a comforting acoustic space
- The Canopy can be up to 3m in width – with no limits to the length when supported by Novus or Novus Trellis
- The Canopy only needs to be linked two sides
- Accessories includes curtains, lighting and preserved foliage

Open collaborative area,  
with the versatility

# NOVUS A-ZONE & MOBILE

## NOVUS A-ZONE COLLABORATIVE BENCH

**Built for today's inclusive workplace. Encouraging ergonomic movement and a team-working environment.**

Novus A-Zone cradles the collaboration work zone, bringing style and functionality together. Suitable for individual and team-working, with a generous surface area and desktop power options, the Novus A-Zone adapts to changing demands.

Ensuring a fully inclusive workspace, the Novus A-Zone height settable option provides access and comfort for all users.

The height adjustable Novus A-Zone brings ergonomic comfort, with the option of pre-settable controls. Further comfort is guaranteed with an option of a Fenix worktop, soft to the touch and scratch resistant.

Generous surface area and desktop power options, the Novus A-Zone adapts to changing demands.

## NOVUS MOBILE

**Manufactured with a reinforced base for stability, the Novus Mobile range includes storage, room dividers and dry wipe boards for meetings and brainstorming sessions.**

Customised designed mobile units add further versatility to the Novus collection. Ideal for creating interactive, bespoke spaces, each item is simply wheeled into position.

Mobile solutions provide screening, functionality, design aesthetics and adaptable workspace to meet the constant changing needs of the modern office.

Ideal for creating interactive, bespoke spaces
